

Reflection on Perth Study Tour 2014

Written by Leung Ka Ho

This study tour is the most memorable experience for me. Australia is a very comfortable place to live in. I was very lucky to spend 16 days in such a peaceful paradise with especially fresh air and a relaxing lifestyle. I would like to express my sincere gratitude to my teachers and parents for giving me the chance to participate in this wonderful study tour.

During my stay in Australia, immersion at Murdoch College was definitely the highlight of this study tour. I could attend different lessons including Geography, Mathematics and Japanese with my two buddies assigned by the college. They were Alex and James. They were friendly and talkative. It was great to make friends with people of diverse backgrounds and beliefs. I tried my best to share with them my ideas and thoughts in English. On the second day of the immersion, Murdoch College organized the Multi-national Day in which I have come into contact with different countries. I realized that it is very important for each one of us to appreciate and respect different cultures and customs.

Apart from having lessons at Murdoch College, I have actively participated in a wide range of activities such as circus training and rock climbing. During the circus class, I have learnt how to play some simple tricks. The instructor shared his experience with us. He was very hard-working and he had to practise for more than twelve hours every day. I realize that I should not give up if I want to be a successful person. I have also learnt a lot from rock climbing. I was very scared at first and I thought that I would not be able to reach the top of the wall. With the encouragement given by my teachers and friends, I could reach the top finally. Such experience helped to increase my confidence towards the challenging adventures ahead of me.

All in all, I have gained a lot from this wonderful trip. I will remember all the great moments I had in Australia.
