愛學求進 · 展現亮點

*Learn with passion
Dream with Action*

熱愛學習求進步 展現才華顯亮點

聖公會李福慶中學秉承聖公宗的教育理念，本著基督捨己服務的精神，提供全人教育，使學生在德、智、體、群、美和靈育方面得到均衡的發展，並鼓勵學生積極進取，成為社會棟樑及優秀人才。奮鬥十七載而取得佳績，實有賴既關愛學生、熱心教學的教師團隊，與及一群投入參與和支持學校工作的家長。本校深信這些信念和願景會帥領我們繼續成長。

本年學校主題是「愛學求進、展現亮點 Learn with Passion · Dream with Action」，將會聚焦於三個學校發展的關注事項：

1. 關注教與學，銳意提升學生學習效能及成績

我們重視課程設計、課程實施及評估。豐富多元的課堂學習，以至各式各樣的延展課程，能照顧不同學習能力的學生。

資優教育及尖子培訓如「種子班」、「Cream Project」；初中不同科目的「英語延展課程」，能強化學生英語能力；「課後學習提升班」和「奮進班」等能促進學習效能；而個別或小組輔導課亦能照顧特別學習需要的學生。

過往多年，本校每年均保持高增值指標，香港高級程度會考多個科目合格率高於全港水平，而近年的香港中學文憑考試，成績令人鼓舞，多個科目考生取得卓越成績，而大部份學生均能在本地、海外、中國內地、台灣等地升讀大學或大專課程。

2. 關注學生多元化發展和全人成長

我們深信每個孩子都是獨特而寶貴的，通過配合不同科目的「其他學習經歷」，讓學生走出課室、走出校園，如領袖訓練、社會服務、體藝活動、海外交流等，讓學生發掘潛能、展現所長、建立自信。

濃厚的宗教氛圍，有助培育學生的靈性成長，使他們建立正確的人生觀及價值觀，成為自尊自重、良善恩慈、滿有盼望、博學多聞、目光遠大、誠實可靠、自發自勉和樂於服務的人。

3. 重視教師團隊、重視教師專業發展，積極裝備迎接教育挑戰

我們的教師團隊重視教學質素、共同建立「學習型組織」，達至教學相長。我們經常進行課堂研究，如「Our Learning Circle」和「公開課」等，近年更與大學教授合作及推薦教師往海外考察，既提升學與教效能，亦緊貼社會的教育脈搏，引領學生更新、蛻變，再創高峰！

過去多年，本校榮獲多項在學術、社會服務、環境保育、體育和藝術等殊榮，這不單給予全體師生鼓勵和肯定，亦給予我們動力向前邁進。我們將繼續群策群力，緊守教學崗位，讓「我們的學生、我們的孩子」身、心、靈得以健康成長。

學校開放日及一年一度公開演出的大型英語音樂劇快將來臨，我們期待與區內學校及各界人士一起分享學生的學習成果。

The Passion to Learn and Progress; the Talents We Shine Through Action

Committed to the Anglican mission and whole-person education, SKH Li Fook Hing Secondary School endeavors to provide a quality education with balanced emphases on moral, intellectual, physical, social, aesthetic and spiritual aspects for students. With our encouragements, we believe that our students can become pillars of the society. The school's achievements over the last seventeen years depend significantly on our caring and enthusiastic teachers as well as supportive parents. With our determined educational vision and mission, we have a strong faith that LFH continues to flourish.

With 'Learn with Passion, Dream with Action' as our annual theme this year, the three major concerns that we would like to highlight are detailed below:

1. We give prominence to the quality of teaching and learning, academic performance and learning effectiveness

We value the curriculum design, implementation and evaluation. Our diversified lesson learning as well as extension classes can fully take care of our students with different abilities.

The emphasis on learning effectiveness that we place can best be reflected by the measures that follow: Gifted Education, 'Seed Class', 'Cream Project', adoption of English as the medium of instruction for various junior form subjects, 'After-school Enhancement Class', as well as 'Endeavour Class'. Along with the above, we minister the distinct needs of students through tailored individual or small-group tutorials.

We have been sustaining a high academic value-added indicator throughout the years. Our above HK's average examination results of various HKAL subjects, together with the encouraging HKDSE achievements have led the majority of our students to pursue their tertiary studies in Hong Kong, overseas, mainland, and Taiwan.

2. We are concerned with the all-round, whole person development of students

We deeply believe that every child is unique and precious. In this regard, we provide diverse learning platforms and experiences outside classroom for our children to explore their talents and shape their confidence. These learning opportunities include leadership training, social services, sports and artistic activities, overseas exchange, etc.

Our dense religious atmosphere facilitates the spiritual growth, establishment of a positive life view, and value system of students. They can then become learned, self-respecting, kind, hopeful, forward-looking, honest, self-motivated and serving persons.

3. We value teachers' team spirit and professional development in order to meet the challenges of education

LFH teachers place great emphases on teaching quality and the construction of a learning community. To put them into action, we implement regular lesson study, 'Our Learning Circle', and 'Open Lesson'. The strong collaboration with scholars and delegation of teachers to overseas visits in recent years further enhance our teaching and learning effectiveness and keep us updated about educational issues. These in turn help lead our young learners to progress and reach to their full extent.

Over many years, the numerous awards that we reaped in the field of academic, social services, environment, sports and arts are dazzling. Not only do these achievements serve as an encouragement and recognition to the school, they also act as a driving force for us to strive for the best. We will continue to cling to our role as teachers so that 'our students, our children' can thrive physically, mentally and spiritually.

The school's Open Day, Information Day, and annual Musical are coming soon; we sincerely hope to share our fruits of teaching and learning with all members in the community.

學者教師同攜手 優化英語學與教

本校一直重視學生的英語水平，先後舉辦了各項有趣和多元化的活動來鼓勵學生學習英語，例如為初中生舉辦英語音樂劇、英語烹飪班、歷史電影專題報告來提升他們學習英語的興趣。同時，高中生亦參與了由國家地理頻道舉辦的「時事紀錄片」製作比賽、「聯校英語會話訓練」、「城鄉小老師計劃」等活動，為修讀高等教育課程及未來就業作好準備。

自2011年起，本校成功取得「優化提升英語水平計劃」撥款，並致力善用款項為教師提供更多英語培訓，迎接「微調教學語言」的挑戰。

除了校內共同備課及協作教學外，本校更邀請得香港中文大學教育學院課程與教學學系文綺芬客座副教授，進行跨學科教師培訓(Language Across the Curriculum Teacher Development Courses)；同時，亦誠邀前教育署首席歷史科講師招紹球博士、香港教育學院科學與環境學系助理教授李揚津博士及前教育學院數學科首席講師曾健華先生擔任專業顧問，為綜合歷史、世界歷史、綜合科學及數學科教師在教學時融入英語元素提供了寶貴意見。

以上種種策略，既強化了教師英語教學的專業水平，更促進了教學團隊的相互合作，讓學生在不同學習領域中接觸及探索英語，提高學習英語的效能。

Quality English Teaching and Learning in Collaboration with Scholars

We greatly value our students' English level of proficiency. To meet this end, various English activities and programmes have been launched over the years. In junior forms, the annual Musical, English cooking class, English-History project are some examples which boost the learners' interest in English learning. In the meantime, 'The National Geography Channel Documentary Project', joint-school oral practice, and 'Teaching English in China' polish the English proficiency of senior form students to better prepare them for their future study and career.

With the provision of 'Refined English Enhancement Scheme' (REES) grants since 2011, our school has provided a variety of English training courses for teachers to live up to the challenges brought by the fine-tuned medium of instruction (MOI).

Apart from the common lesson preparation and collaborative teaching, in the past academic year our teachers were highly benefitted from the professional sharing and training of local renowned education scholars. We invited Adjunct Associate Professor Man Yee-fun, Evelyn, The Chinese University of Hong Kong to give us a talk on 'Language Across the Curriculum Teacher Development'. We also worked with Dr. Chiu Shui-yim, the former Head Teacher of History, EDB, Dr. Lee Yeung-chung, the Associate Professor of Department of Science and Environmental Studies, HKIED, and Mr. Tsang Kin-Wah, Francis, the former Head Lecturer of Department of Mathematics, HKIED to furnish the teaching skills using English in the subjects of Integrated History, World History, Integrated Science and Mathematics.

While the above have helped to strengthen our quality of English teaching, the collaboration among teachers and the effectiveness of English learning of students have also significantly facilitated.

‘Tip-top’ Training Nurtures Budding Talents

We have always been offering a range of appropriate training programmes and school measures to unlock our children’s talents as well as forward their development.

To begin with, forty students this year were accredited and trained by the Hong Kong Academy for Gifted Education in the areas of Mathematics, Science, Humanities and Leadership.

We also nominated a number of talented students to participate in ‘The Elite Student Project in Chinese Language’ and the ‘Hong Kong Budding Poets (English) Award’ run by the Education Bureau. The ‘SKH Inter-school Maths Board Game Competition’ that we co-organized with other SKH secondary schools further enhanced our students’ high order thinking and problem solving skills.

Our ‘Seed Class’ programme in junior forms, ‘Cream Project’ and ‘Endeavour Class’ in senior forms give extra but comprehensive training to our students to cope with public examinations and challenges in study.

Attending intensive English classes in the renowned Murdoch University, staying with the host families and visiting a lot of famous attractions such as Perth Education City and Country Park, enrolling in various courses such as circus jugglery, rock climbing and beach ball were all fun activities which allowed our students to improve their English proficiency as well as understand more about the lifestyles and cultures of local people. It was an enriching trip in which all the participating students enjoyed and learned a lot.

Apart from Singapore and Australia, a team of S5 students visited various universities in Taiwan to better prepare themselves for future education by having a thorough understanding of the learning atmosphere and admission criteria of the place.

The rationale of teachers' development of our school has always been on care, cohesion, training, and equipping. To enhance the quality of our teachers, Principal and teachers always actively participate in seminars and conferences held internationally.

Last year, Principal Cheung attended a sharing programme in Singapore to exchange ideas on successful implementation of 'Learning Circle'. An education expert from Singapore then came to our school to share his insights on Learning Circle. Principal Cheung also went to secondary schools in Lijiang, Yunnan to conduct lesson observations. Together with principals of other SKH secondary schools, she also visited various tertiary institutions in Taiwan such as National Taiwan University and National Chengchi University to exchange ideas on current issues of education.

Besides, our school teachers attended international education conferences around the world. Chairpersons of English and Chinese Department travelled to Singapore to learn the key elements of Learning Circle. Teacher representatives also shared their experiences with colleagues after joining teacher exchange programmes held in Shanghai, Xian and Taiwan in order to enhance effectiveness in teaching.
